PROFESSIONAL SUMMARY

Results-driven Frontend Developer and UI Developer with 4.4+ years of experience building high-performance, responsive web applications across Fintech, Mining, and Enterprise domains. Proven expertise in React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, and Figma. Delivered production-grade UIs for major financial platforms including Axis Bank and ABM eKYC portals, and architected a scalable frontend for a data-intensive mining portal. Adept at translating complex business requirements into clean, pixel-perfect, cross-browser-compatible interfaces that drive measurable improvements in performance, usability, and user retention.

TECHNICAL SKILLS

Frontend Development: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, jQuery, Bootstrap 5, Tailwind CSS, Responsive Design.

UI Development: Component-Based Architecture, Cross-Browser Compatibility, Performance Optimization, Lazy Loading, Asset Delivery Optimization.

Design & Prototyping: Figma, Adobe Photoshop, Wireframing, High-Fidelity Mockups, Design Systems, UI Auditing, Usability Testing

Dev Tools: Git, Version Control, Generative AI Tools (Gemini, Claude AI, ChatGPT)

Soft Skills: Cross-functional Collaboration, Stakeholder Communication, Requirements Gathering, UX Problem Solving.

WORK EXPERIENCE

Frontend Developer - Groundhog Apps Pvt Ltd, Hyderabad

June 2025 - Present

- Architected a scalable, component-based React.js frontend for a data-intensive mining portal, ensuring 100% responsiveness and a seamless adaptive experience across mobile, tablet, and desktop viewports.
- Optimized frontend execution and asset delivery pipeline to significantly reduce page load latency, enabling complex, data-heavy pages to render rapidly for end users in production.
- Translated detailed mining statistics and corporate data into clean, intuitive layouts; transforming raw structured data into a highly navigable, user-friendly interface with clear visual hierarchy.
- Collaborated with backend engineers to integrate REST APIs and ensure consistent, real-time data rendering across all portal modules.

Frontend Developer - Innodigital Solutions Pvt Ltd, Hyderabad

July 2024 - April 2025

- Built and delivered pixel-perfect, fully responsive frontend interfaces for major Fintech applications including Axis Bank eKYC and ABM eKYC portals, serving high-traffic production environments.
- Collaborated with cross-functional Product and Engineering teams to gather requirements and deliver innovative UI solutions that enhanced usability across multiple devices and platforms.
- Identified and resolved critical UX friction points through rigorous usability reviews and UI audits, leading to a measurable increase in application stability and improved user retention on high-traffic financial platforms.
- Ensured cross-browser compatibility and WCAG accessibility compliance across all delivered interfaces, meeting both regulatory and usability standards.

Frontend Developer - Raice Tech Soft Pvt Ltd*Oct 2023 - June 2024*

- Designed and developed the official website for the ARDO organisation using HTML5, CSS3, JavaScript, and React.js, focusing on clean UI, responsive design, and seamless UX to strengthen the organisation's digital presence.
- Implemented interactive UI elements and CSS animations to enhance user engagement and improve perceived performance across the site.
- Debugged and improved UI components in close collaboration with designers and backend developers, resulting in measurably better performance and cross-device usability.

UI Developer – Labtron Equipment Pvt Ltd, Hyderabad*Nov 2021 - Oct 2023*

- Designed and developed multiple company websites using HTML5, CSS3, JavaScript, and Bootstrap to enhance user experience and digital brand presence.
- Collaborated with development teams to implement pixel-perfect designs, ensuring smooth, consistent user journeys across all major browsers and devices.
- Conducted performance testing and user feedback sessions to identify UI improvements, driving continuous iteration and product quality enhancement.

KEY PROJECTS

Mining Portal – Groundhog Apps | <https://ssic-qa.groundhogapps.com>

- Sole frontend architect of a scalable, data-intensive mining management portal. Built with React.js for 100% responsive performance across all devices with optimized asset delivery and reduced load latency.

Axis Bank eKYC Portal | <https://office.innodigital.in/axis-ekyc/mobile>

- Developed a fully responsive, WCAG-compliant eKYC mobile interface for Axis Bank in production; meeting both financial regulatory requirements and high usability standards for end customers.

ABM eKYC Portal | <https://office.innodigital.in/abm-ekyc>

- Developed a fully responsive, WCAG-compliant eKYC mobile interface for Axis Bank in production; meeting both financial regulatory requirements and high usability standards for end customers

EDUCATION

Bachelor of Technology - Electronics & Communication Engineering*2017 - 2021*

University College of Engineering and Technology, MGU, Nalgonda
